

UNDER COUNTERTOP INDUCTION UNITS

TECHNICAL GUIDELINE

This document outlines the under countertop induction units that are compatible with Cambria.

Discover Cambria quartz surfaces in unexpected settings, including paired with under-countertop induction units. Stunning, durable and maintenance free, Cambria quartz surfaces are the perfect choice for countless residential and commercial applications.

It is important to note that any stone countertop including Cambria surfaces can be damaged by sudden temperature changes, especially near the edges, as well as direct or sustained heating from the top. As a result, applications such as this may require additional professional expertise. For further information or questions, please contact Cambria's Technical Services Team at 1-866-CAMBRIA (1-866-226-2742).

This document outlines the under-countertop induction units that are compatible with Cambria. The manufacturer's installation instructions for these under countertop induction units must be followed.

1. The following make and model of under-countertop induction units can be used with Cambria when properly installed per the manufacturer's requirements.
